# Health Commitments

## Healthy Breads

### Brown Bread Boost

Our Whole wheat options are made with freshly ground Atta and are fully vegan.

### Multigrain Multitudes

Our Multi-grain rolls are made with over a dozen freshly ground ingredients, such as sunflower seeds, flax seeds, buckwheat, and oats.

### Fresh Bread Daily

Our breads are freshly baked everyday in our in-house bakery.

### No Chemical Additives or Preservatives

We do not use Monosodium Glutamate, Potassium Bromate or Potassium Iodate in any of our products.

## Cholesterol Conscious

We have a wide variety of delicious non-cholesterol low fat, eggless cakes as well as low fat sugar free desserts and beverages.

We use only low fat, non-cholesterol non-dairy cream in all our pastries.

We only use Trans-fat free margarine in all our products whenever possible and heart healthy rice bran oils.

We use only lean, boneless chicken without any skin or fat, which is thorough cooked. We source our chicken from Venky's, which also ensures that it is 100% Halal.

## Vegetarian & Vegan Options

Our Icecreams and thick shakes are 100% Vegetarian.

We make our own mayonnaise which is 100% Vegetarian.

We also have a number of pure Vegan options in snacks, drinks and desserts.

We use only high quality branded essences and food colours.

# Environmental Commitments

## Recycling

All our garbage is segregated, and our edible left overs are used to supply food and animal charities.

We are continuously trying to find to innovate and reduce our disposals

## Rainwater Harvesting

We have our own water harvesting system that supplies an internal well which also recharges the ground water level and in turn helps other nearby local wells.

We use the well water for floor and restroom sanitation, including flush tanks, thereby reducing our dependence on public utility water.

## Green Packaging

We use paper and recyclable packing for the vast majority of our products.

Our serving bowls and plates for our Hot Bakes etc are made from paper and is 100% Biodegradable.

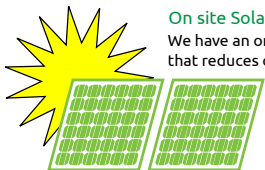

We are committed to reducing single use plastic.

## Carbon Footprint Reduction

### On site Solar Power Plant

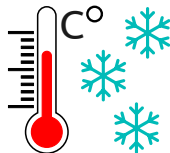

We have an on-site Solar power plant with 20 KW capacity that reduces our power demands and helps in stabilizing the local grid while offsetting our carbon footprint by approximately 20 Tons of Carbon

### Natural Heat Reducing Systems

We use natural heat reducing technologies such as Roof Top Turbine Vents and White Roofing to bring down the ambient temperature of the building.

We have an internal misting system to provide a very low carbon emission solution to cool down our seating area during the summer.

### LPG Fired Ovens

Our Bakery uses non-polluting gas fired ovens.
